PERSONAL STATEMENT

I am an aspiring Fullstack Developer with a strong passion for programming, self-driven learning, and an unyielding commitment to personal growth. My coding journey kicked off with the Python programming language, however I decided to delve into frontend development in a bid to pursue my goal to become a fullstack developer. Currently focused on improving my skills and expertise in front end development through personal projects and active learning.

I am now seeking an internship role where I can put my learning into action, gain practical experience and develop proficiency in fullstack development while contributing to the team's development.

EDUCATION

Obafemi Awolowo University   Osun State
Bachelor of Agriculture (First Class Honors)   Dec, 2023
Best Graduating Student, Agricultural extension and rural development 2021/2022
Cumulative GPA: 4.66 / 5.0

SKILLS

Programming Languages: Python, HTML, CSS and Javascript

Tools: Visual Studio Code, Webflow, Git and Github

Soft skills: Communication and interpersonal skills, Collaboration and teamwork, Time management, Creativity and innovation, Continuous Learning and Improvement, Problem Solving, critical thinking and debugging skills.

Learning Interests: Reactjs, Vuejs, Nodejs.

PROJECTS

Weather App
- Developed a responsive weather app providing real-time updates and forecasts.
- Implemented HTML, CSS, and JavaScript for the front-end.
- Integrated weather API for fetching weather data based on user input.
- Featured location-based forecasts, ensuring accurate and relevant information.

- Skills demonstrated: Front-end development, event handling, DOM manipulation
- Link to project: **https://oluwalopamilerin.github.io/Weather-app/**

Todo-List App

- Developed a user friendly todo-list app using HTML, CSS and JavaScript.
- Implemented task creation, editing, deletion and prioritization.
- Implemented check and uncheck functionality for effective task tracking.
- Implemented local storage for seamless data persistence across browser sessions.
- Front-end development, event handling, DOM manipulation, local storage management.
- Link to project: **https://oluwalopamilerin.github.io/Todo-list-app/**

Portfolio Website   *(In progress)*

Developing a portfolio website to showcase personal development projects, skills and achievements.

LEADERSHIP EXPERIENCE

Mentor Me in Tech (MMIT)   (June 2023- till date)

(Program Manager)

- Collaborating with cross-functional teams to ensure the on-time and on-budget delivery of program objectives and goals.
- Developing and executing project plans, budgets, and timelines aligned with organizational objectives.
- Coordinating the planning and execution of tech-focused mentorship programs, overseeing all aspects of program development and delivery.
- Conducting needs assessments, tracked program metrics, and maintaining strong partner relationships to enhance program effectiveness.

MOU Agro. Customer Reporter and Institution   (Sep 2021- Apr 2022)

(Campaign Manager)

- Developed and executed strategic marketing campaigns tailored to the agricultural sector.
- Identified and engaged target audiences effectively through various channels both online and offline.
- Monitor campaign performance, analyze data, and adjust strategies for optimal results.
- Fostered partnerships, promoted agricultural training, and market farm inputs to drive growth and impact in the industry.

iLead Academy   (Apr 2020 - Feb 2021)

(Academy Moderator and Training Lead)

- Facilitated training sessions and workshops on academic excellence, leadership development and financial literacy to ensure comprehensive understanding among participants.
- Provided coaching and mentorship to academy participants, assisting them in achieving their learning and career goals.
- Contributed to the growth and success of iLead Academy Community by fostering a positive and inclusive learning environment.

COURSES & TRAININGS

- Python Basics | University of Michigan, Coursera   **Sept, 2020**
- Python Functions, Files and Dictionaries. University of Michigan, Coursera.   **Nov, 2020**
- Data Collection & Processing with Python | University of Michigan, Coursera   **May 2022**
- Frontend Development | Altschool   **Aug, 2022**
- Webflow 101 | Webflow   **April, 2023**
